The groupwork suck, they way pete teaches is horrible because he isn't professional at all, also maybe not have one seminar in the morning snd one in the afternoon, no one wants a 3 hour break, same with the critiques, no one wanna wait till 16:00 to hear feedback.	247813-247806-20455408
Explain more about coding	247813-247806-20455352

If we had more classes about html Less group work	247813-247806-20455399
I would say an extra lecture would be beneficial, because officially we only have one lecture a week for this module which is a shame, and I feel with the ammount of workshops and critiques we have I think an extra lecture should be available, I personally really enjoy them more and I walk away knowing more each time.	247813-247806-20455385
I believe a free personal Adobe Cloud subscription provided from Coventry University will aid our learning process.	247813-247806-20455353
Individual research (Qualitative Research worksheet) isn't fully explained clearly, so I'm not sure on how to fill it out, therefore would be good to explain on how to complete it. The Technical Skills workshops are quite rushed each session, and quite difficult to catch up with in class.	247813-247806-20455441
Group work - some people are useless	247813-247806-20458816
